Appendix G. Existing VA Shuttle Schedule	G.1
------------------------------------------------	-----

Table of Figures

Figure G-1: Route 1	G.2
Figure G-2: Route 2	G.3

VA GLA Healthcare System provides shuttle services between VA clinical facilities in Kern, Los Angeles, San Louis Obispo, Santa Barbara, and Ventura counties. The shuttle enables Veterans who lack adequate means of transportation to easily move between key VA clinical facilities, providing greater access to specialty services. The tables below show the current schedules for the two shuttle routes currently provided by the GLA Healthcare System. At each of the listed VA facilities, the driver is required to pick up Veterans, check for laboratory specimens the facility’s laboratory, and check with its information desk for any items that need to be delivered to other VA facilities.
